EPA Site Inspections
PREscore Package - Westbank Asbestos
Document Control No.: 04603-023-0303

Dear Ms. Bennett:

Roy F. Weston, Inc. (WESTON®) is pleased to present the PREscore package completed for the Westbank Asbestos site (LAD985170711) in Marrero, Jefferson Parish, Louisiana. This effort was part of the Site Inspection Work Assignment completed for various sites in EPA Region VI.

The PREscore for the site of 9.40 was driven by the air pathway. The groundwater, surface water, and soil exposure pathways were not evaluated since an observed release to these pathways was not documented nor is it suspected. If you have any questions or concerns, please call us at (713) 621-1620.

Very truly yours,

ROY F. WESTON, INC.
